

Mohammad Iqbal

CS Student — Aspiring Software Engineer

Karachi, Pakistan 

0334-6699401 

imiqbal7070@gmail.com 

www.iqbal.dev.com.pk 

Ambitious Software Engineering and AI undergraduate with a strong command of Full Stack Web Development (PHP, .NET) and Mobile App Development (Flutter). Passionate about building scalable solutions and eager to apply technical expertise in a challenging entry-level engineering or AI-focused role.

Core Skills

- **Frontend:** HTML5, CSS3, JavaScript, Bootstrap, jQuery.
 - **Backend:** PHP, C# (.NET Core MVC), C++.
 - **Mobile Development:** Flutter, Dart.
 - **Databases:** MS SQL Server, MySQL.
 - **Tools:** Git, GitHub, VS Code, MS Office.
-

Education

BS in Artificial Intelligence | 2025 – Present

- UBIT, University of Karachi
- Focus: Artificial Intelligence, Data Structures, Algorithms.

Higher Diploma in Software Engineering (HDSE) | 2023 – Present

- Aptech Institute of Technology
- Focus: Full Stack Web Development, Enterprise Applications.

Intermediate (Computer Science) | Completed 2025

- DJ Govt. Science College, Karachi
-

Certifications

Certificate in Information Technology (CIT) — AS Institute of Technology, 2022 (6 months)

Professional Experience

Office Assistant | Private Company | 2023 – 2025

- Managed company documentation and increased retrieval efficiency by 15%.
 - Handled professional correspondence and data entry with 100% accuracy.
-

Projects

City Guide App | Mobile Application (Flutter & Dart)

- Designed a cross-platform mobile application that acts as a digital travel guide, offering users curated information about city landmarks and attractions.
- Implemented smooth UI navigation and state management using Flutter widgets.

Flappy Bird Clone | Game Development (Flutter & Dart)

- Developed a fully functional 2D game replicating the classic Flappy Bird mechanics.
- Built game physics (gravity, collision detection) and score tracking logic using pure Dart.

Online Movie Ticket Booking System | Web Application (PHP & MySQL)

- Built a dynamic booking platform allowing users to browse movies, select seats visually, and process orders.
- Implemented a secure admin panel for managing show times and booking data.

Online Insurance Portal | Enterprise App (.NET Core MVC)

- Developed a prototype insurance management system with product listings and policy registration features using C# and MS SQL Server.
-

Languages

- English — Fluent
 - Urdu — Native
